

CHESAPEAKE BAY POWER POINT LAB

PURPOSE:

To discover data relevant to the understanding of the Chesapeake Bay, and to prepare a Power Point for presentation to the class.

PROCEDURE:

1. With a partner or alone develop a Power Point Presentation on a specific, chosen topic about the Chesapeake Bay.
2. Investigate sources on the internet to determine data and pictures about your Chesapeake Bay topic.
3. Title slide must include title, your name and partners' name, block and date
3. Prepare at least *FIVE Text* power point slides with Five bulleted facts for each slide.
4. Prepare at least *Five Graphics* power point slides with descriptive captions for each picture or graphic.
5. List your *SOURCES* with a complete website URL. (Last slide of the presentation).
(If your sources can not be checked your lab will be awarded a "ZERO" for a grade).
6. Use correct grammar with no abbreviations or slang.
7. Complete the presentation at the end of the Lab or by the next class block.
Presentation must be saved in the following directory using your name (and partners' name) as the file name:
8. Extra work may result in extra credit.
